Quality Implementation in Career Guidance

How to improve quality assurance implementation in career guidance

The Erasmus+ project aims to improve the quality in career guidance focussing on two areas:

- individual skills of career guidance practitioners by creating a European mentoring programme and an individual certification with a list of key quality areas, ie. required knowledge, skills,

competences and self-assessment tools
and

- a **quality development framework for organizations** providing guidance that will contain a description of different phases of quality development with tools, recommendations, monitoring procedure and finally an **audit procedure** for these organisations.

www.abif.at

- An **analysis on quality assurance practices** in the participating countries Slovakia, the Czech Republic, Austria, Germany, Norway, the Netherlands and the UK which shall describe good practices and also approaches that did not work well.
- **Two information seminars for stake-holders**, one taking place in Slovakia and the other one in the UK
- **A mid-term conference taking place in the Netherlands and a final conference taking place in Slovakia**
- **Two joint-training events** taking place in Germany and Austria

The project target groups are:

- Career guidance practitioners and
- organisations providing career guidance
